The finality of the last Office action dated 07/17/2006 is withdrawn. Applicant's arguments, see Appeal Brief page 18, filed 12/21/2006, with respect to claims 1-3 and 7-9 have been fully considered and are persuasive as reasons for allowance. With respect to claims 4-6, see the reasons for allowance presented below.

Allowable Subject Matter

Claims 1-9 are allowed.

The following is an examiner's statement of reasons for allowance: As per independent claim 4, Chen discloses an AVT circuit library comprising one PFET having a LVT and one NFET having a SVT [see column 6, lines 24-35]. Although the reference mentions that there are many possible variations in a mixed low and regular voltage threshold logic book, the variations include a plurality of PFETs having both LVT and SVT, and a plurality of NFETs having both LVT and SVT. Therefore, the reference does not anticipate or adequately suggest as obvious an AVT circuit library essentially comprising a plurality of PFETs *each* having a LVT and a plurality of NFETs *each* having a SVT.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
